For Immediate Release

Waterplay Releases Critters, a Playful Spray Character for All Ages

Waterplay® Solutions presents Critters, a playful Grasslands creature with exciting water spray action for all ages.

Kelowna, Canada—December 16, 2015— Waterplay® unearths Critters! A new nature-inspired character in the Grasslands product line, these friendly mud worms are digging up big fun on the aquatic play pad with water spurting action for all ages.

Built with a water cannon design, these ground dwelling creatures prove that action-packed play comes in all sizes. Critters invite Waterplayers to join in a hands-on water adventure: grab ahold of their vibrant antennae and move the smooth rotatable head up, down, and side to side to unleash a surprising spurt of water. Through horizontal and vertical movements, this surface mounted feature creates dynamic sprays that will delight toddler, children and youth age groups. Available in two sizes (23 inches [592 mm] or 37 inches [931 mm] tall), there's a Critters companion for everyone!

Now available to the global market, Critters will inspire the playful nature of children around the world.
