Team up with your favourite Waterplay activator and our smartPLAY™ Controller featuring smartACCESS™.

MANIFOLD - 18 VALVES

0010-2591

PRODUCT LINE Water Management

CATEGORY Manifolds

HIGHLIGHTS

The manifold is the workhorse behind water distribution. Waterplay's high efficiency manifold ensures that water gets to where it needs to be accompanied with the flow rate that you require.

- Reversible, compact design adapts easily into most space requirements
- Features a robust, stainless steel header and sched 80 PVC piping
- Slow-closing solenoid valves prevent water hammer
- Pre-assembled with mounting brackets for easy installation
- Smart design with access to valves allows for easy maintenance access
- Electrical components ULC certified
- Meets local codes & assembled with NSF 50 listed parts

BEST PRACTICES

Work with our in-house support teams to learn more about how to optimize flow rates for the best play experience for your project.
