

Materials Coordinator

We're passionate about play. We believe that bringing play to communities makes the planet more livable and socially just. With thousands of installations across the world, we're excited to be a part of the movement toward a healthier, happier, global community by offering innovative aquatic play solutions designed for developing minds, thrill seekers, budding explorers, and the young at heart. Our work culture is important to us and we believe that with a team of individuals that demonstrate an **ICARE** attitude we can achieve amazing things. From tacking a weld to putting the final touches on a piece of ad copy, we believe that every task we undertake is important and should be completed with an **INNOVATIVE** approach, a solid **COMMITMENT**, and an **ATTITUDE** that anything is possible, along with mutual **RESPECT**, and a level of **EQUALITY** that invites collaboration. We're always looking for exceptional people to join the Waterplay Group of Companies. If you like working in a fast-paced, dynamic environment and have a passion for play, then we'd love to hear from you!

Position Overview:

Our Supply Chain and Logistics group is growing, and we're looking for an experienced team player – someone comfortable in a manufacturing environment, incredibly organized and equally adept with calipers and micrometers as with spreadsheets and databases.

Your years in warehousing and/or shipping and receiving roles mean you understand the logical progression from concept to purchase to production and can perform the critical quality checks at every step along the way.

Of course, you are the poster-child for safety, as your years in industrial settings have given you an appreciation for risk and how to mitigate it, and you encourage that same attentiveness in your coworkers.

With a natural inclination to color inside the lines, your eagle-eye and precise work style are what our Quality Assurance Manager will value because you're responsible for quality checks on all of parts.

This is a new position, and the person filling it will be proud of their contribution to our highest quality standards as you'll manage and perform all aspects of our internal quality control system. Inventory management, order processing, and working with our Purchasing, Engineering and Production teams to review specifications and cross reference shop/engineering drawings will round out your days.

Interested? For more information, and to submit your application, please visit www.waterplay.com. We're grateful for everyone who invests time and energy to apply and will contact those who we're keen to learn more about.

Please send your resume with a cover letter to careers@waterplay.com with your name and “Materials Coordinator” in the subject line or via mail to: Attention: Careers Waterplay Solutions Corp.
805 Crowley Avenue Kelowna, BC Canada V1Y 7G6

Applications will be accepted until Wednesday, December 16th, 2020.

We appreciate the time and effort from all applicants, and will directly contact those we wish to interview.
