

Technical Service Representative – Landscape Architect

We're passionate about play. We believe that bringing play to communities makes the planet more livable and socially just. With thousands of installations across the world, we're excited to be a part of the movement toward a healthier, happier, global community by offering innovative aquatic play solutions designed for developing minds, thrill seekers, budding explorers, and the young at heart.

Our work culture is important to us and we believe that with a team of people who **CARE** we can achieve amazing things. From tacking a weld to putting the final touches on a piece of ad copy, we believe that every task we undertake is important and deserves our utmost **COMMITMENT**, an **ATTITUDE** that anything is possible, mutual **RESPECT**, and a level of **EQUALITY** that invites collaboration.

We're always looking for exceptional people to join the Waterplay Group of Companies. If you like working in a fast-paced, dynamic environment, have a passion for play, and truly **CARE**, then we'd love to hear from you.

Position Overview:

We are currently looking for a **Landscape Architect** to join our technical service rep team to be involved in all aspects of the creative & functional design of aquatic play pads, playgrounds and streetscapes. Some key functions of your role will be to analyze and collaborate with our team and clients on their design, create conceptual designs and technical drawings support; Communicate with groups both within and outside the company; Oversee design projects from conception to install; Create conceptual/schematic designs that align with client vision, budget, construction constraints, and internal design guidelines; and Provide technical support for the sales and customer support team; Liaising and working with other landscape architects to assist in bringing their vision to reality.

Key Responsibilities:

- Create AutoCAD drawings
- Use of Customer Relationship Management (CRM) software to generate parts quotes and orders
- Respond to technical questions from a variety of audiences (sales staff, product dealers, installers, engineers, non-technical groups)
- Review and comprehend technical bid specification drawings
- Troubleshoot installation issues via email or phone
- Build technical manuals and supporting documentation for Waterplay products
- Train external customers and internal staff on technical aspects of products

Education

- Landscape Architect or Landscape Architect Technologist

Competencies

- Customer focused with excellent communication skills
- Time management skills, and ability to manage projects and solve problems with minimal direction
- High general aptitude in commercial construction
- Strong comprehension of technical drawings (construction, installation, fabrication, etc.)
- Skilled in CAD programs, specifically 2D AutoCAD
- Ability to troubleshoot mechanical and electrical systems.
- Proficient in Microsoft Office (primarily Excel, Word and PowerPoint)

Experience

- 3 to 5 years landscape architecture experience (in the construction industry an asset)
- 1 to 2 years' AutoCAD experience
- Customer Service experience an asset
- Experience with CRM and ERP systems an asset
- CPSI Training or playground design experience an asset
- Project management certifications an asset
